# Product Technical Description

| | |
|---|---|
| Range: | Delta |
| Colour: | Super White |
| Group: | BIa (Fully vitrified porcelain) |
| Glazed: | Unglazed: X |

| **Dimensions:** | | | | |
|---|---|---|---|---|
| Nominal Size: | 600 x 600 mm. | ± 0.5% | Production Size: | Conforms to norm |

| **Coefficient of Water Absorption:** (<0.5%) | Test Results: | Conforms to norm |
|---|---|---|

| **Abrasion Resistance:** | PEI | V |
|---|---|---|

| **Resistance to Chemical Attack:** | | | |
|---|---|---|---|
| Acids & Alkalis | Conforms to norm | Household Chemicals | Conforms to norm |

| **Resistance to Scratching:** | Mohs Scale: | 6 |
|---|---|---|

**Stain Resistance:**

| **Slip Resistance:** | | | |
|---|---|---|---|
| DIN Ramp Shod Foot Test: | | DIN Ramp Barefoot Test: | |
| Pendulum Test: | Dry: 57 Wet:13 | | |

**Recommendations:**

- **Don't use cleaning agents that contain hydrofloric acid.**
- **We recommend installing floor tiles with a minimum grout joint of 1.5mm. Never install wall tiles without leaving a space of the minimum recommended grout joint.**
- **For large format materials, we recommend fixing them with mortar which contains polymer additives and using the double fixing technique.**
- **In the case of any doubt about the installation of wall tiles we recommend consulting the manufacturer.**
